Entered at the postoffice at Barre as second class matter.

FRIDAY, APRIL 7, 1905.

The average daily circulation of the Barre Daily Times for the week ending Saturday was

3,400

The Boston newspaper man who wrote about the "wild and lawless mountaineers" of Vermont has not yet emerged from the woods himself.

Essex county is to be congratulated that it is having its first murder trial in forty years; not because it has a murder trial on its hands but because so long an interval has elapsed since the last one.

Gov. Douglas will soon have an opportunity to do what Gov. Bates failed to do and which cost him a re-election—sign the overtime bill sent up to him by the legislature. It is expected that Governor Douglas will sign.

The Texans are welcoming the president with a gusto that goes well with the country, and the president's stock of speeches has not run out yet. When the latter contingency arrives he will take his musket and meet the mountain lions, etc.

## A WOMAN'S SUCCESS.

That two women should have taken examinations before the state board of pharmacy the other day was unusual. That one of the two should have been successful, while ten men failed in the same tests was not unusual because there was no precedent. But that the one woman should have lead the class of fourteen applicants is an eye-opener. However, that is not a conclusive indication that women, in their gradual encroachment on man's domain, as man is wont to call their entrance into the various activities of life, are necessarily bringing a greater amount of brains and common sense to the work. For there were circumstances undoubtedly in favor of this successful woman. The chief one was that she had tried the examination of every state in New England, and that in every instance where reports had been given out she had passed. The examination in Rhode Island was taken just prior to her visit to Vermont and the result there had not been heard. In view of these facts it is only fair to assume that this woman had an advantage over the other aspirants for certificates from the Vermont board on Wednesday, an advantage which was fair but which gave her a certain grasp of the situation the others did not command. That there was a similarity in the questions of the five New England states' boards must be inferred from the fact that they cover one subject, familiarity in whose fundamental features

is supposedly the groundwork for a successful examination. This acquaintance with the examinations in the other states probably helped materially.

But we have no desire to detract from the real honor of having led the class of applicants. Of the other woman, the one who failed to pass, perhaps no comment is necessary. And the same of the ten men who failed, except that judging by recent examinations, one of two things has taken place; either that the examinations are becoming almost prohibitive in their strictness or that the brain of the students is becoming dulled. Of the two we are inclined to believe that the former is true.

## ALFRED SPEER'S SURPRISE.

Well Known Business Man Tells of Peculiar Experience.

Few business men are better known throughout the country than Alfred Speer of Passaic, N. J. Although he is over eighty-one years of age and the head of a large concern, as well as the editor of the "Passaic Item," yet he found time to write the following letter, hoping that it would be of interest and benefit to our readers.

"To the Editor:—I cannot keep from expressing my surprise at the wonderful relief and benefit I derived from the use of Hyomei. For some years past I have been a victim to nasal and throat catarrh, and during that time have expended a great many dollars to specialists, and had my throat sprayed, washed and smoked week after week. The first time I used Hyomei I was surprised at the change it brought. This was a few months ago, and I have used it occasionally since. It makes me so well that I often forget and neglect its use for several days, but each time when I breathe it the hawking and discharge cease, and it is wonderful how it acts.

"I am over eighty-one years of age, and careful not to praise anything until I know what I am about.

"Respectfully yours,

"Alfred Speer."

The complete Hyomei outfit, including the inhaler, costs but \$1.00, while extra bottles sell for 50 cents. You run no risk whatever in buying it, as Rickett & Wells sell it under their personal guarantee to refund the money if it does not relieve. Ask them to show you a copy of their guarantee.

## OPPORTUNITIES.

Opportunities come to most men at some time in their lives. But how many are there who are prepared to take advantage of them? An opportunity usually means a money investment. It is necessary that a man have a little capital. The boy who acquires the saving habit—who saves steadily and persistently—will be prepared to accept his opportunity when it comes to him.

Suppose you save \$5.00 each month. Deposit it in the "GRANITE" at three per cent. In a year you will have to your credit \$60.97. In five years, \$323.81. In ten years, \$699.58. The possession of \$700.00 has enabled many a man to take advantage of a business opening that has started him upon a successful career. If others, why not you?
